

Foresters Advantage Plus II, Strong Foundation, Your Term & SMART UL

Underwriting Guide

It is the responsibility of the Underwriting Department to properly evaluate all applicants for insurance coverage. This requires sound, underwriting practices consistent with Foresters Financial™ philosophy for the selection of risks. In order to provide the best possible service, Foresters Underwriting Team must also rely on the producer to develop complete and accurate information at point of sale.

This manual is a guide intended to help the producer understand the probable underwriting action for commonly encountered medical histories. Naturally, the final action on an application is the decision of the Underwriter, based upon the varying circumstances that each particular case may present. It is important to recognize that the underwriting guide is meant as a basis for decision-making, and that other factors, including Foresters Underwriter's judgment, may affect the final decision.

This document was prepared for the exclusive use of appointed producers. It is not intended for public distribution, nor is it to be used in any solicitation or marketing of Foresters products.

INTRODUCTION

You are an important part of the underwriting process and as participant in the sale, processing, underwriting and issue of our life insurance certificates we want you to be familiar with our underwriting philosophy and practices. Attention to these guidelines will help to speed up certificate issue and to explain underwriting decisions when the policy is placed.

The most important step in the underwriting process is accurate detailed answers to all questions on the application. It is important that the application show detailed health history for all proposed insureds to assure that it may be underwritten in an accurate and timely manner. Failure to properly record complete and accurate information could result in either unnecessary delays or serious problems at time of claim.

PRODUCT INFORMATION

Individual life insurance coverage is provided by Foresters Financial™, a trade name and trademark of The Independent Order of Foresters (a fraternal benefit society, 789 Don Mills Road, Toronto, Ontario Canada, M3C 1T9) and its subsidiaries.

Underwriting guidelines, procedures and forms may vary by type of life insurance and state. Be sure to consult all materials relative to your specific product and state. By following the procedures outlined in this manual and the marketing guidelines you will maximize your percentage of issued life insurance applications.

FIELD UNDERWRITING

As an appointed producer you are authorized to solicit, write applications and otherwise transact the business of insurance in any state where you are both properly licensed by the state and authorized by Foresters to conduct business.

As an appointed producer you may not solicit applications in any manner prohibited by or inconsistent with the provisions of Foresters rules, regulations, or policies. If you have any questions regarding any type of solicitation transaction please contact your agency or refer to Foresters "ezbiz" Solicitation Rules in the Contracting Section.

The following practices are not acceptable:

1. Applications altered or corrected with regard to the signature of the proposed insured, the date signed, the city and state of the applicant, the producer's signature, or any changes to information deemed to be material to the issuance of the certificate, unless initialed by all parties to the contract (Agent, Owner and Proposed Insured).
2. Paper applications with a stamped signature rather than handwritten ink signatures.

Good Field Underwriting is critical to the success Insurance Operations, and consists of more than just careful questioning of the proposed insured.

The following suggestions should help you and your clients in obtaining coverage as quickly as possible and on the most equitable basis:

1. Furnish complete information on past medical history to include date of first diagnosis, type of treatment, dates and physician information.
2. If medical history is involved, identify the disease or condition for which treatment was obtained.
3. Complete all underwriting questionnaires as appropriate.

Do not underestimate the proposed insured's knowledge of the diagnosed condition or the reason for the operation or treatment.

1. The writing producer is never authorized to disregard a proposed insured's answers, or to impose his or her judgment as to what is or is not important to record. The writing producer is never authorized to approve or alter an application for the proposed insured.
2. Only the Underwriting Team can make the final decision; therefore, never suggest or promise that coverage will be issued.

FINANCIAL UNDERWRITING GUIDELINES

Income replacement and estate protection are two important factors in determining the total amount of insurance (applied for and in-force) the applicant is eligible for.

Income Replacement

An income factor may be used to determine the total amount of insurance an applicant is eligible for.

AGE	MULTIPLIER OF EARNED INCOME
18 - 30	30
31 - 40	25
41 - 50	20
51 - 60	15
61 - 65	10
66 and up	5

Earned income includes income from salary, commissions and bonuses. It doesn't include investment, pending, interest, retirement or rental income.

Estate Protection

This is generally meant to preserve the proposed insured's net worth by covering any federal, and if applicable, state estate or inheritance taxes. This is determined on a case by case basis. Factors used to determine the amount of coverage include:

- the value of the estate and the anticipated future value of the estate
- the state of residence and the anticipated estate taxes taking into consideration the federal exemption and current federal and, if applicable, state law.

Non-income Earning Spouse

We evaluate the insurance needs for a non-income earning spouse on an individual basis. Some factors we consider are:

- the amount of household income
- the amount of coverage on the income earning spouse. The non-income earner should not have more coverage than the working spouse unless the working spouse is uninsurable
- The number of dependents

Juvenile Underwriting

Most children and students do not need a significant amount of insurance since they do not have estates, pay taxes or have income to replace. When submitting applications on children or students, the following information will be required:

- Provide the amount of insurance each sibling, if any, has.
- An explanation will be required if the amount of insurance varies between siblings
- Amount of insurance in-force on the parents. Generally, a parent must have double the amount of insurance in-force than applied for on the child

In addition, when submitting applications for students or recent graduates, provide the following information:

- Area of study and expected graduation date
- Anticipated future earnings
- Family net worth

Some of the cases may not fit into the parameters above but we are willing to work with you to understand the special circumstances of each case. For complicated financial cases or when you cannot use the information above to justify the amount of insurance applied for or in-force, a Financial Needs Analysis along with a cover letter describing the financial need for your client will be beneficial.

RESIDENCE/CITIZENSHIP

The applicant's primary residence must be in a state where the product is approved for sale, state of solicitation or residence. Check the product availability maps on our agent website <https://portal.foresters.biz/> for availability details.

Foresters will consider applicants with a valid Green Card and select Visa's. Please refer to the Immigration Guidelines document on the agent website for full details.

FOREIGN TRAVEL

Travel in the course of business or pleasure will be considered up to and including 12 weeks. Underwriting foreign travel/residency will vary depending on international risks and how changes in political, security and health "environments" could impact the risk in that area. It is advisable to call Underwriting for a more accurate risk assessment as travel advisories are always changing.

Coverage is not available for applicants planning to reside in a foreign country indefinitely.

MILITARY

Foresters welcomes applications from active duty military personnel (as long as the solicitation, application completion or sale did not occur on a military installation) and each case will be underwritten based on individual consideration and state laws. State regulations require the use of point of sale disclosure documents when selling to active duty military personnel. Insurance will not be offered to individuals who have been deployed or have received notice of deployment.

It is also important to note that Foresters is currently not registered to sell on military installations.

Individuals on "Active Duty" or full-time duty in the active military service of the United States, including members of the National Guard and Reserves, while serving under published orders for a period for 31 days or more are not eligible for riders that have a War Exclusion Clause, including ADR, and Waiver of Premium Benefit. Please complete a Military Questionnaire or provide the following details on the application:

- Branch of service
- Present duty status
- Current rank
- Length of present assignment
- Military occupational specialty
- Indicate whether supplemental or hazardous duty pay based on duties is being collected
- Indicate whether the insured will be transferred overseas, if so, where?
- Indicate whether the insured will be transferred to a new unit
- Indicate whether the insured or their unit will be alerted for duty (if presently in Reserve of National Guard)

OCCUPATION

The occupation of a proposed insured is a major factor in their eligibility and many of those occupations may eliminate an applicant from qualifying for the basic product and possibly riders. Applicants with occupations that are exceptionally hazardous will be declined or rated, for example:

- Any occupation that involves working above certain heights
- Any occupation that involves handling explosives
- Any occupation that involves handling hazardous materials

AVOCATIONS

Examples of recreational activities that may eliminate a proposed insured from Non-Medical Issue include:

- Scuba diving. The decision depends primarily on the level of certification and depths. Please have applicant complete Scuba and Skin Diving Questionnaire.
- Motorized racing (automobiles, motorcycles, boats). The decision depends on the level of competition, size and power of engine, etc.
- Hang-gliding, skydiving. Please have applicant complete Aerial Sports Questionnaire.
- Mountain/Rock Climbing. Please have applicant complete Climbing and Mountaineering Questionnaire.

BENEFICIARY DESIGNATION

The beneficiaries must meet the insurable interest requirements under state insurance law. Please refer to Foresters "ezbiz" Beneficiary 101.

TEMPORARY INSURANCE AGREEMENT (TIA)

The TIA is a temporary insurance agreement that allows the proposed insured to have coverage during the underwriting process. It is available to the applicants who, on the date the application is being signed, are more than 15 days old but have not had their 71st birthday and for face amounts applied for up to a maximum of \$1,000,000. The proposed insured must truthfully answer "No" to the 3 questions asked in the TIA agreement and provide their first month premium for the TIA to take effect. The maximum payout is the lesser of the face amount applied for or \$500,000

PREFERRED SUBMISSIONS INSTRUCTIONS

- Preferred rates are only available on fully underwritten plans (see Product Guide for face amount minimums).
- Current testing and underwriting can only determine preferred status. Applicants cannot be expected to know if they qualify. All submissions will automatically be considered for preferred underwriting and issue based on the best insurance class available according to the preferred criteria (page 7).
- AVOID DELAYS AND DISSATISFACTION: Even if the proposed insured appears to qualify for preferred rates, they may not. Foresters underwriting strongly advises that the producer collect the standard non-tobacco or tobacco premium with the application or prepare the client for the possibility of a non-preferred decision.
- When ordering medical requirements, please ensure you select the correct company and location to ensure the completed information is received in a timely manner.

NON-MEDICAL UNDERWRITING

Non-Medical underwriting requires answers to the Lifestyle Questions, Part1: Medical Questions and Other Insurance questions on the application. A Pharmacy and an MIB check will be run on every proposed insured. If the proposed insured does not qualify for Non-Medical rates, the application will be declined. In some situations, a new application will be required for a fully underwritten product. Non-Medical limits are based on the proposed insured's current age and total non-medically underwritten insurance in force with Foresters and are as follows:

STRONG FOUNDATION NON-MEDICAL LIMITS

Age	Face Amount
18 - 55	\$400,000
56 - max	\$150,000

SMART UL AND ADVANTAGE PLUS II NON-MEDICAL LIMITS

Age	Face Amount
0 to 15	\$150,000
16 to 55	\$400,000
56 to 75	\$150,000

For Advantage Plus II, if either the 10-Year or 20-Year Term Rider is added at issue, the maximum rider benefit amount is:

For issue ages 18-55: \$400,000 minus the total face amount of the base certificate, plus the amount of paid-up additional insurance purchased under a Single Payment Paid-up Additions Rider (if applicable), plus any other non-medical coverage currently in force with Foresters.

For issue ages 56-75: \$150,000 minus the total face amount of the base certificate, plus the amount of paid-up additional insurance purchased under a Single Payment Paid-Up Additions Rider (if applicable), plus any other non-medical coverage currently in force with Foresters.

Non Tobacco Definition:

Strong Foundation: Applicants who have not smoked cigarettes within the past 12 months. Allows use of cigar, pipe, chewing tobacco, nicotine patches and other substitutes.

Your Term, SMART UL & Advantage Plus II: Applicants who have not used any product containing nicotine within the past 12 months.

BUILD

OVERWEIGHT

Of significant importance in evaluating one's insurability is the relationship of an individual's height and weight. An overweight individual has an increased incidence of cardiovascular disease and renal disease. In addition, there is added stress to the weight bearing joints and bones. Obesity may also be associated with other disorders such as diabetes and other endocrine disorders.

UNDERWEIGHT

Underweight generally is of less significance than overweight concerning long-term disabilities and illnesses, however, abnormally thin individuals may have difficulty gaining weight because of nutritional deficiencies, or a chronic underlying disease. Frequently, thin individuals have a low resistance to acute illnesses.

WEIGHT REDUCTION

When weight reduction has been accomplished, and the weight has been stable for one year, full credit will be given for weight loss. If there has been weight loss and the weight has not been stable for a period of 12 months, half credit will be given for the weight lost. Example: Female 5'7", 231lbs; lost 36 lbs within 2 months. If current weight is 195 lbs, allow ½ credit by adding 18 lbs, for a total of 213 lbs, before referencing the appropriate build table.

AGE & AMOUNT REQUIREMENTS

(Your Term, Advantage Plus II & Smart UL Medically Underwritten)

To help your underwriter with the evaluation process you are responsible for ordering requirements from a third party provider (See Approved Vendors). A representative from the selected third party provider will call your client to schedule an appointment to complete the necessary requirements (outlined in the appropriate age and amount requirement charts).

The risk appraisal is based on information obtained from the following sources:

- Application
- Attending Physician's Statements (APS), (if required)
- Blood Profile
- Department of Motor Vehicle (MVR), (if required)
- ECG or Stress Test
- Inspection Report
- Medical Examination
- MIB Inc.
- Paramedical Examination
- Pharmaceutical Records
- Special Questionnaires
- Urinalysis (included with Blood Profile unless otherwise stated)
- Vitals

Additional risk assessment factors may also be used in our evaluation.

AGE & AMOUNT REQUIREMENTS CHARTS

(Your Term, Advantage Plus II & Smart UL Medically Underwritten)

It is important to note the following:

- At ages 75 and up, a completed Activities of Daily Living Questionnaire (ADLQ) is required with the application form submission.
- For additional insurance (within 12 months) age and amount requirements will be based on the total insurance inforce and applied for with all companies.
- Additional requirements may be requested by the underwriter to obtain details of declared histories

ADVANTAGE PLUS II

For Advantage Plus II, in order to determine age and amount requirements, add the following together; basic Advantage Plus II face amount, plus any term rider, plus the amount of PUAR using the chart below. If GIR is also applied for add on amount equal to the lesser of the original face amount or \$50,000. For examples, refer to the last page of this guide.

For the Single Payment or Flexible Payment Paid-up Additions Rider, applications are underwritten on an insurance amount determined by the factors shown in the table below

Underwriting Age & Amount Tables for Paid-up Additions Rider		
Age at Rider Effective Date	Flexible PUA Factor	Single PUA Factor
18-35	15	6
36-50	10	3
51-75	5	2

The applicant's applied for maximum annual payment amount is multiplied by the appropriate factor to determine age and amount requirements. The expense load is not deducted from the payment when determining this amount. Any increase to this flexible payment will require underwriting on the amount in excess of any previously approved amounts.

A PUA rider can only be added to a Medical version of an Advantage Plus II certificate that is standard or rated up to an including Table F +150%.

LEGEND FOR CODES:

MODIFIED COVERAGE

It may be necessary to issue coverage with an extra premium or exclude or deny coverage to an applicant due to health or other history. Final disposition regarding an application is the decision of the Underwriter. It is possible that two applicants with similar conditions could result in a significantly different final action based on multiple factors.

FILE INCOMPLETE OR POSTPONED

Incompletion occurs when the required age and amount requirements are not ordered within 28 days after the application date. However, once received, the file may be considered for reopening and a certificate issued if the applicant is insurable.

Postponements are applied in immediate high-risk situations where it is likely that a satisfactory judgment may be made at a later date. The Underwriter will provide the approximate date and/or prerequisites for reconsideration.

Some impairments will require a waiting period before being considered for life insurance. This is not a complete list:

- Cancer: one or more years
- Coronary Artery Disease (includes angina, heart attack, bypass surgery and angioplasty): minimum six months
- Uninvestigated symptoms, symptoms currently under investigation, until investigation is complete

IMPAIRMENTS

Some medical impairments cannot be considered for coverage. Please refer to the attached Impairment Guide.

Certain combinations of impairments are often uninsurable. The following are some examples:

- Chronic kidney disease with high blood pressure
- Depressive and/or anxiety problems in combination with alcohol abuse
- Diabetes in combination with Coronary Artery Disease (CAD), Cardiovascular Disease (CVD), or kidney disease.

RECONSIDERATION OF UNDERWRITING ACTION

Certain medical impairments that resulted in a substandard premium may be reconsidered when there has been an improvement in health status. A reconsideration of the rating may be reviewed upon completion of a change application and the review of any deemed underwriting requirements. A reconsideration date may be offered in some situations at the time of initial underwriting.

SUBMITTING INFORMATION

If all the available information is submitted with the application, it is more likely that a decision can be made with a single review.

For simplified issue cases, Foresters requires additional information for each "Yes" answer in the Lifestyle and Medical Questions sections. You can help speed up the Underwriting process by completing, at the time of the application, the Underwriting Questionnaire that is applicable to each "Yes" answer. The following questionnaires are the most common and should cover most of your cases:

- Alcohol Usage
- Chest Pain
- Cyst, Lump or Tumor
- Diabetes
- Drug and Substance Usage
- Mental Health
- Respiratory Disorders

For all other "Yes" answers, you can provide the following details in the "Additional Information" section of the application:

- Diagnosis
- Date first diagnosed
- Treatment
- Prescribed medications and equipment
- Medical facilities
- Dates of hospitalization and duration of each stay
- Physicians' names, addresses and telephone numbers (if different from question 19 in the application)

The full list of Foresters questionnaires is available for those who wish to use them, but you may not need them if complete details are provided in the "Additional Information" section (*Impairments with available questionnaires are noted with a "Q" in the Medical Impairment section*).

- Activities of Daily Living (required for ages 75+)
- Aerial Sports
- Arrhythmia/Atrial Fibrillation/Irregular Heartbeat
- Arthritis
- Attention Deficit Hyperactivity Disorder or Attention Deficit Disorder
- Aviation
- Back and Neck
- Benign Prostate
- Climbing & Mountaineering
- Digestive System Disorders
- Epilepsy and Seizure Disorder
- Foreign Travel
- Hazardous Sports
- Heart Murmur
- High Blood Pressure/Hypertension
- Kidney and Urinary Disorders
- Lupus
- Military
- Prostate Cancer
- Respiratory Disorders
- Scuba and Skin Diving
- Sleep Apnea/Sleep Disorder
- Tobacco

In the event of insufficient/no details provided on the application for a "Yes" answer or of a discrepancy between information from MIB/Pharmacy checks and the application, Foresters will contact the producer for further information and may request to have a questionnaire completed.

All questionnaires can be found in the "Forms & Brochures" section of Foresters producer website under "Underwriting & Questionnaires".

CERTIFICATE CHANGE INFORMATION

OVERVIEW

These types of changes include requests from the applicant or producer to change the coverage either by increasing or decreasing benefits; adding or deleting benefits, adding or deleting family members or reinstating coverage that has lapsed. Changes that increase Foresters liability require underwriting approval.

UNDERWRITING POLICY CHANGES

All medical history is reviewed including claims information on file. Current underwriting guidelines are followed and insurability requirements must be met.

As with New Business applications, the underwriting review process may include requests for information through Attending Physicians Statement, Exam, Blood Profile, Inspection Report, Motor Vehicle Report (MVR), or MIB Inc.

- Benefit changes - If current guidelines would require modification to coverage with a rating, it is normal underwriting procedure to deny a benefit change to avoid compromising current benefits.

90-DAY CHANGES

Changes made to certificates within 90-days of issue. Changes could include:

- Increasing or decreasing certificate face amount
- Increasing or decreasing rider coverage amount
- Adding or removing riders (e.g. Accidental Death Rider)
- Changing the plan type (e.g. changing from a 20-year term to a 15-year term)

To request changes within 90-days of certificate issue, we require the following:

- The original certificate issue package to be returned.
- A signed letter from the owner, advising of the requested changes.
- If the request is for an increase in coverage (e.g. face amount increase or addition of a rider), a check from the owner for the difference in premium.

Note: These changes are effective as of the original certificate issue date. Therefore, ensure that the check will cover the difference in premium from the original issue date to the date the request is being submitted.

After the change has been completed, a new certificate issue package will be provided to you for delivery to the owner. The New Business delivery processes should then be followed.

POST 90 DAY CHANGES

Changes made to certificates beyond the 90 day change period can include:

- Decrease in certificate face amount
- Decrease in rider coverage amount
- Addition or removal of riders
- Change to non-tobacco premium basis
- Reduction or removal of rating

To request changes beyond the 90 day change period, we require the following:

- A properly completed and signed Application for Change.
